Installed as new members of the board of directors were Micheel Hass, Gerald Gex, Larry Mauffray and E. J. Marengo. Continuing unexpired terms on the board are J. Norton Hass jr., Alec Cospolich and Dr. Robert McKinley.

Marengo, giving his semiannual report covering the period from June 27, 1960 to Dec. 31, 1960, reported that the Bay St. Louis chapter of Jaycees has been recognized as the leading Jaycee chapter in Mississippi. He also reported the local group has sponsored the formation of four other chapters and setting a nation-wide Jaycee extension record. He also reported other activities during the mentioned period including the purchase of the Jaycee building.

DISCUSS HIGHWAY SURVEY - State highway engineers and a representative of the Automotive

Safety Foundation discuss local street and highway needs with city officials at a meeting in City Hall Tuesday for a statewide highway survey.

Industry Study Bids Monday

Four engineering firms are expected to submit bids Monday to the board of supervisors for a proposed economic and industrial survey of the county. Bay St. Louis Jaycees, along with the Hancock County Chamber of Commerce, suggested the survey as a preliminary step in attract-

ing new industries to the county. Both groups urge interested persons to be present when the board takes up the matter at 10 a.m. Jan. 23.

Supervisors Due Cloverleat Recommended

State highway engineers said Tuesday they will recommend to the state legislature that a cloverleaf be built at U. S. 90 and Main Street and that Main and another street be designated one-way thoroughfares.

engineers, Robert Price and C. H. Bennett of the State Highway Department and Terry J. Owens, urban highway engineer with the Automotive Safety Foundation of Washington, D. C., told the plans to Mayor John_A. Scafide, Commissioner of Public Utilities J. Cyril Glover and Forrest L. Farve at a meeting in City Hall.

They explained the statewide highway needs survey being prepared for the legislative committee by the Automotive Safety Foundation to determine what is needed and how much it would cost to bring highways up to certain standards under a 20-year improvement program.

Mayor Scafide said the engineers noted the traffic problem in Main Street resulting the narrowness of th street, particularly in the business section. They recommended making Main Street one way westbound from Beach Boulevard to short distance from U. S. 90. This plan would also require making another street one way eastbound and the mayor said it was recommended that that street Researcher Addresses Rofary

be Easterbrook The city and state officials discussed the problem over a city map and it was recommendthat a cloverleaf grade separation be built at U. S. 90 and Main Street to relieve traffic problems there. Traffic would be two-way on Main Street east of U. S. 90 for about a block and at that point there would be one-way east bound lanes which would curve over to Easterbrook joining it west of St. Francis

Mayor Scafide said the engineers told him that this proposal will be in their final report to the legislative committee. if adopted as part of the state highway project it would be part

completed sometime within the 20 year plan. The engineers also discussed

the arterial streets including Main Street, Washington Avenue from Railroad Avenue to city limits, Beach Boulevard, Dunbar Avenue and the Old Spanish Trail and Railroad Avenue. The work needed and the cost to bring these streets up to a desired standard also will be in the report to the state.

Negroes Held n Burgiary

Jones School Four Negroes will be tried at 10 a.m. tomorrow before Justice of the Peace Nelius Rhodes on charges of burglarizing the boys' dressing room at Valena C. Jones School Friday during basketball game with North Gulfport High School.

The youths, Andrew McKay and Rudolph Robertson, both 19, Barren and Sidney Bell, both 18, were arrested Tuesday and Wednesday by Chief of Police Alcine Saucier, City Patrolman Lantham Garriga, Reat 5 Constable Arthur Garcia and Sheriff Gerald V. Price and are being held in county jail. Missing items were three jac-

kets, a car coat, three pairs of trousers, two sweaters, two pairs shoes and two duffel bags.

Identity Held for **Others**

Police in Solano, Calif. arrested two men Tuesday in connection with the Dec. 23 hijacking of a \$2,700 had of whiskey and \$2,200 in cash from a panel truck owned by Stieffel Bros., of Waveland.

The men whose names are being withheld pending the arrest of other parties involved in the hold-up will be charged with armed robbery, kidnapping and auto theft.

Sheriff Gerald V. Price said this morning that arrests of the others is expected within 24 to 48 hours. He did not disclose the number of other warrants issued. District Attorney Boyce Holleman sent extradition papers to Solano immediately following the apprehension of the alleged hijackers.

A. J. Stieffel was driving the truck accompanied by Donald Dorn, a company employe, when they were stopped by four armed, masked men on Rt. 603 near Kiln. They were ordered from the truck, bound, pillow cases were placed over their heads and they vere left by the roadside in freezing temperature.

A search party found the truck the same day near Sellers with the load of liquor removed.

Assisting in the investigation have been an unnamed private detective and investigators from the State Tax Commission in lackson. Black market tax loss to the commission has been estimated to be between \$300 and \$400. Arrests were made by sheriff Al Carboza of Fairfield County, Calif.

On the motion of Lugis Ne-caise, Courrege was authorized to move heaters from the vocated Sellers School to Gulfview. The board turned down a request for an animal show in the North Central gym after Principal Leo Rouse expressed concern chaus damage to the floor. Rouse also reported an im-

surance adjuster has chooked damage caused in the gymnasium when a heater exploded recently.
He said there is still trouble with the roof leaking and damaged tile in the showers has never been replaced. In an informal discussion

afterwards the principal confirmed that North Central is now rated an A school athletically and enrollment indicates it will continue in that status. North Central took a B classification in its first year last session and the basketball team won the state B-BB and then the overall championship. Rouse told Necaise no invitational tournament is planned this year because to was doubtful much money could. be raised by that means.

Members expressed a desire to hold night rather than daytime meetings in the future.

Good Resolution

Te are indebted to the Henry L. Cits, Logiow wire commender of Mississippi's tepartm. of Disabled American Veterins, for a copy of a resolution adopted by the state organization s executive committee carlies this month. The resolution in part reads;

... It is the sense of the convention, that recubers of the American Congress have neretorore exercised their right of voting in accordance with their comscience many times and it NCT a matter of our knowledge that anyone has ever been benalizzed for so doing.

"Therefore, we respectfully memoralize the Conmess of the United States and pray that no nember of the American Congress shall be striped it its committee assignment or any other nowers or emoluments of his office for the reason that he tid not subscribe to nor support any candidate for president of the United States."

The resolution is obviously in support, among others. of our representative, Hon. William Cotmer. While we disagreed with Mr. Coliner during last November's election, as we have said editornally before, we certainly hack him in the threat to his seniority on the powerful Rules Committee, and wholeheartedly subscribe to our disabled veterans' view of the matter.

In case you're interested, the Mississippi Chamber of Commerce estimates that Hancock County's share of an \$2.439,000. Thats a lot of money we don't have.

In our first issue after the New Year the Echo mentioned, non-editorially, the excellence of the University of Minnesora band, and it, as well as the university's football team is among the tops. So, at least, is the famed band of the Washington Redskins. Nevertheless, the best half-time performance we saw on TV was Senday at the National Football League's All Star game. Te're not sure we heard the correct name of the band from the announcer, but it sounded like Mt. Miguel Girls

our own

John Sharp Williams, dist ..guished senator and statesman, once said. "Mississippi's greatest asset is her loops and girls."

Mississippi's economy was long primarily agricultural, and opportunities for fully utilizing her youth were comparatively limited. With a higher per capita birth rate and low death rate, Mississippi has fathered and mothered a wealth of talent that has gone forth to enrich other commonwealths and countries. With few exceptions, no other state has made so substantial a contribution to the nation in manpower and womanpower.

Only through diversified and aggressive industrial development can Mississippi hope to hold these young men and women and capitalize upon their inherent abilities. And only as these sons and daughters accept the challenge to build the state above itself can we ever hope to make the most of our natural resources.

Wherever you find Mississippians, you discover an inkorn loyalty that forever hinds them in spirit to their native soil. This spiritual tie is one of our priceless assets, and its cultivetion and preservation can enrich the state.

To encourage and inculcate in the rising generation the will to acrifice and the desire to serve — that they may become believers and doers in the building of Mississippi - is the high purpose of education.

Certainly, the electric development of Mississippi, under courageous leadership, makes possible unprecedented opportunities for our own to make the most of their lives in challenging times.

NOTICE TO THE INSURANCE BUYING PUBLIC BY WALTER DELL DAVIS, COMMISSIONER

The Department of Insurance has been deluged recently by calls and letters from persons who cancelled their existing automobile liability insurance policy in order to obtain a policy with another company at a lesser rate. These people find themselves in the unfortunate position of having had their new insurance cancelled or rejected because of the insured's driving record, insecure financial status, under-age drivers, etc. The person so involved then finds himself in the position of having no insurance, and with a cancellation or rejection on his record finds it impossible to again be written voluntarily by the company with which he formerly did business, or with any other company. His only recourse is to go into the "Assigned Risk Plan", which means that his liability insurance coverage will be placed in a company pool with some company being selected through the rotation method to write his particular policy. The Assigned Risk Plan rates are as high as the manual rate, and sometimes higher, based upon the insured's experience of accidents.
